Overview

A sleek, compact frame designed for single riders seeking efficient urban mobility.

Versatile Urban Mobility

This Compact Foldable Electric Bicycle is engineered for the modern urban commuter, combining a lightweight aluminum alloy frame with a highly portable folding design. Featuring a brushless motor and a high-capacity lithium-ion battery, it offers a reliable range of up to 60km with pedal assistance. Its compact 12-inch wheels and impressive 180kg load capacity make it a robust yet agile solution for daily transportation and recreational riding.
