

Compact Folding Bicycle with Quick Release

This compact folding bicycle features a quick folding mechanism. It is equipped with small wheels and a rear rack, making it ideal for urban commuting and travel.

Product Overview

Compact Mobility Solution

This compact folding bicycle features a durable 4-bar linkage full steel frame designed for urban commuting and portability. Equipped with a quick-release folding mechanism, it allows for seamless storage in small spaces. The versatile design includes a padded saddle, rear rack for light cargo, and specific wheel sizes to ensure a comfortable ride for professional city dwellers.
