

# Compact Food Chopper

This compact food chopper efficiently prepares food with its stainless steel blade and transparent bowl. It is equipped with pulse control and a non-slip base for safe and easy operation.

## Overview

### Compact & Efficient Food Preparation

This compact food chopper is designed for quick and efficient food preparation in small kitchen spaces. Powered by a 150W low-noise DC motor, it effortlessly chops, minces, and dices ingredients like vegetables, fruits, and nuts in seconds. Featuring a user-friendly pulse control button and a durable stainless steel blade, this unit combines safety with convenience for everyday meal prep.

## Technical Specifications

### Power Rating

**150 W**

Motor Power

Operating Voltage	220-240V
Frequency	50/60Hz

## Capacity & Design

Bowl Capacity	350 ML
Blade Material	Stainless Steel

## Features

### Key Features
