

Compact Four-Door Sedan with Front-Wheel Drive

This compact sedan has a four-door configuration and a front-engine, front-wheel-drive layout. It is equipped with a MacPherson strut front suspension and a torsion beam rear suspension.

Overview

Compact Sedan Overview

This compact four-door sedan is designed for efficiency and reliable daily operation. It features a conventional front-engine, front-wheel-drive layout optimized for urban maneuverability and balanced handling. Built with a focus on structural rigidity, the vehicle combines practical interior space with a dependable suspension setup to ensure a comfortable ride for passengers.
