Product Overview

Professional Performance in a Compact Design

This high-performance nutri blender combines a powerful 1400W AC motor with versatile blending capabilities, making it ideal for smoothies, shakes, and nutritious drinks. It features a durable high-boron glass jar for large batches and a convenient BPA-free Tritan travel bottle for on-the-go use. With variable speed settings and automatic modes, this blender offers both professional-grade power and user-friendly operation.
