

Compact Handheld Car Vacuum Cleaner

This compact vacuum cleaner is designed for quick cleaning tasks in vehicles. It features a handheld design, a transparent dust container, and a car lighter adapter for power.

Product Overview

Compact Handheld Cleaning Solution

The Compact Handheld Car Vacuum Cleaner is a convenient, portable tool specifically engineered for automotive interior maintenance. Designed to operate directly from a 12V D.C. cigarette lighter socket, it offers hassle-free power access while cleaning. Its lightweight, handheld architecture allows users to easily reach tight spaces in a vehicle, while the washable filter ensures long-term usability and cost-effectiveness.
