Product Overview

Compact Heater Fan with Motion Sensor

The HF0801 is a versatile and compact heater fan designed for efficient personal space climate control. Featuring both normal and warm wind modes, it adapts to your environment while ensuring safety with an integrated child lock and removable filter for easy maintenance. Its smart motion sensor technology enhances energy efficiency by automatically switching to standby mode when the area is unoccupied.

Performance & Technical

Product Model: HF0801
 Rated Voltage: 100~120V, or 220~240V
 Rated Frequency: 50/60Hz;
 Rated Power: 1000W
 Wind Speed: 2.1m/s
 Product Size: 250*213*286mm
 Wind Type: Cold & Warm
 Swing Type: Horizontal direction 65° automatically swing ,
 Vertical direction 90° manually swing

Technical summary of the HF0801 performance and dimensions.

Rated Power

1000 W

Power Output

Wind Speed	2.1 m/s
Voltage Compatibility	100-120V, 220-240V
Frequency	50/60Hz

Features & Functionality

Swing Capabilities

Direction	Range	Control
Horizontal	65°	Automatic
Vertical	90°	Manual

Smart Features

- Human motion sensor (Auto-standby)
- Child lock
- Normal and warm wind modes

Design & Maintenance

Dimensions	250 x 213 x 286 mm
Maintenance	Yes
