

Compact Hi-Fi Audio System with CD Player

This compact Hi-Fi audio system includes two separate speaker units and a central control unit. The control unit has a display screen, USB, HDMI, SD card slots, and a CD player.

Product Overview

Compact Hi-Fi Audio Experience

This compact Hi-Fi audio system delivers high-quality sound with versatile playback options including CD, DVD, and digital media. Featuring advanced 96kHz/24-bit digital audio processing and a robust error-correcting servo system, it ensures reliable performance for both audio and high-definition image output. Designed for modern connectivity, the unit includes USB and card reader slots, making it a comprehensive solution for home entertainment.

Audio Performance

Output Power

15 W

Output Power per Channel

Audio Specifications

Parameter	Value
Signal-to-Noise Ratio (SNR)	>90dB
Frequency Response	20Hz-20kHz
Sensibility	86dB (+3dB/-3dB)
Nominal Impedance	4 Ohm

Connectivity & Compatibility

Connectivity Ports

- USB Slot
- 3-in-1 Card Reader
- Optical Fiber Audio Output
- Coaxial Audio Output
- High Definition Image Component Output
- Independent External Audio Signal Source

Supported Media Formats

MP4, DVD, DVD-R, HDCD, SVCD, CVD, VCD, CD, CD-R, MP3, KODAK PICTURE

Technical Features

Core Technologies

- 96kHz/24-bit digital audio processing
- Built-in HDCD, PCM, MPEG digital audio decoder
- New generation servo decoding single-wafer technology
- Intelligent software upgrading
- Super-strong error correcting function
