

Compact Household Refrigerator with LED Display

This compact refrigeration unit is designed for household use. It features a circular LED display for temperature monitoring and strategically placed ventilation slots for optimal airflow.

Product Overview

Compact Refrigeration Solution

The DG-XSF04 is a compact and efficient refrigeration unit designed specifically for household use. It features a robust construction that ensures durability and long-term reliability in various kitchen environments. With its integrated circular LED display, users can easily monitor and control temperatures, while strategically placed ventilation slots ensure optimal airflow and cooling performance.

Design & Aesthetics

Housing Color	Green
Design Features	Compact Design, Modern Aesthetic, LED Interface

Technical Specifications

Primary Usage	Household
Control Interface	Circular LED Display
Cooling System	Optimized Airflow Ventilation
