Overview

Compact Power for Tight Spaces

This 500kg mini excavator is engineered for versatility, featuring a narrow 770mm profile that allows it to pass through standard doorways and side gates with ease. Powered by a reliable 9.5HP Kohler petrol engine, it offers robust hydraulic performance for trenching, landscaping, and light construction tasks. With its minimal surface disturbance via rubber tracks and intuitive control layout, it is an ideal solution for professionals working in restricted-access environments.

Technical Specifications

Engine Power

9.5 HP

Engine Power

Operating Weight	500 kg
