Overview

Compact Hydraulic Excavator Overview

This versatile compact excavator is engineered for high-performance digging, lifting, and material handling in confined job sites. Featuring a robust hydraulic system and a durable undercarriage, it delivers exceptional precision and operator comfort. Designed for efficiency, the machine excels in urban construction, landscaping, and utility applications where maneuverability and reliability are paramount.

Performance Metrics

Key Performance Metrics

37.4 kN

Max Digging Force

58 %

Max Gradeability

44 kN

Max Traction

Travelling Speed

5.1 km/h

Platform Swing Speed

13.5 rpm

Hydraulic System

Hydraulic Specifications

Component	Value
Operating Pressure	24.5 Mpa
Variable Pump Capacity	50+5 ml/r
