

Compact LED Flashlight with Clip

This durable and compact LED flashlight features a textured grip. A sturdy metal clip allows for secure attachment, and a bright blue accent ring surrounds the lens.

Overview

Compact and Durable Illumination

This compact LED flashlight is engineered for reliability and portability, featuring a durable aluminum housing that stands up to daily use. Equipped with a high-performance CREE XPG LED, it offers versatile lighting modes including high, low, and strobe settings to suit various environments. Its slim profile and integrated clip make it an essential tool for professionals and outdoor enthusiasts alike.
