

Compact MIG Welding Machine

Compact MIG welding machines are designed for various welding applications. The units feature adjustable settings for optimal welding performance, including voltage and wire feed speed.

Product Overview

Compact MIG Welding Solution

This compact MIG welding machine is engineered for versatility, offering reliable performance across a range of welding applications. Designed for both professional and DIY environments, the unit features adjustable settings for voltage and wire feed speed to ensure optimal weld quality. Its portable design makes it an ideal choice for users needing a balance of power and ease of operation.

Technical Specifications

Available Models

- MIG 100
- MIG 100F
- MIG 130

Adjustable Features

- Voltage
- Wire Feed Speed

Welding Process

MIG, MAG

Features

Portability

Compact Design • Easy Operation
