Product Overview

Compact Power for Narrow Access

This compact mini excavator is engineered for versatility in tight spaces, featuring a narrow 770mm width that allows it to pass through standard doorways and side gates with ease. Weighing only 500kg, it is highly portable and can be easily transported in a small trailer or pickup truck. With a powerful 9.5hp engine and a robust hydraulic system, it is an ideal solution for trenching, landscaping, and light construction tasks.

Dimensions & Portability

Operating Weight	500 kg
Machine Width	770 mm

Engine & Performance
