

# Compact Mini-Tiller for Agriculture

This mini-tiller features superior performance in a compact, lightweight design for easy operation. It is suitable for tilling, plowing, weeding, trenching, and other agricultural operations, especially in orchards, greenhouses, and small plots.

## ADDITIONAL IMAGES

## Overview

### Compact Mini-Tiller for Agriculture

This mini-tiller offers superior performance in a compact, lightweight design, making it ideal for orchards, greenhouses, mountains, hills, and small plots. It is a versatile tool capable of performing rotary tilling, plowing, weeding, trenching, earthing, planting, fertilizing, water pumping, and spraying. Designed for efficiency and ease of operation, it supports a wide variety of agricultural machinery attachments to maximize productivity.

## Performance Metrics

<b>Supported Operations</b>	Rotary Tilling, Plowing, Weeding, Trenching, Earthing, Planting, Fertilizing, Water Pumping, Spraying
<b>Engine Type</b>	Air-cooled Diesel Engine

## Application Suitability

### Ideal Environments

- Orchards
- Greenhouses
- Mountainous terrain
- Hilly regions
- Small plots
