

Compact Mini Tiller for Home Gardens

This compact mini tiller is designed for domestic use in small gardens. It features a robust engine for efficient soil preparation and is lightweight for easy maneuvering.

Product Overview

Efficient Soil Preparation for Home Gardens

This compact and ultra-lightweight mini tiller is designed specifically for domestic use in small gardens and flower beds. It features a strong engine that ensures efficient operation while maintaining excellent oil-saving performance to lower fuel consumption. The ergonomic handle and simple operation make it easy to maneuver, providing a user-friendly experience for various agricultural environments.

Engine & Performance

Engine Displacement

140 cc

Displacement

Engine Configuration

OHV • High Efficiency

Fuel Performance

Excellent oil saving performance with lowered fuel consumption

Design & Ergonomics

Operating Handle

- Ergonomic design
- Flexible adjustment
- Adjustable speed
- Adjustable height

Build Characteristics

Compact, Ultra-lightweight, Miniaturized

Operation & Maintenance

Maintenance Features

Quick and simple blade change system

Compliance & Standards

Regulatory Compliance

EPA, CARB, EURO-V, REACH, RoHS

Applications

Recommended Use

- Home gardens
- Flower beds
- Small-scale agriculture
