

Compact Palm Sander for Wood Finishing

This palm sander is a compact and lightweight power tool designed for sanding surfaces in hard-to-reach areas. It features a square sanding pad for efficient material removal and a comfortable grip for extended use.

Product Overview

Compact Palm Sander

This compact and lightweight power tool is engineered for precision sanding in hard-to-reach areas. Featuring a square sanding pad, it ensures efficient material removal and smooth finishes. Designed with user comfort in mind, the ergonomic grip allows for extended use without fatigue, making it an ideal choice for detail work on wood, metal, and plastic surfaces.
