

Compact Passenger Bus

This compact passenger bus is designed for shuttle or tour purposes. It features a two-tone color scheme and multiple windows for ample natural light.

Overview

Compact Passenger Bus

This compact passenger bus is designed specifically for shuttle and tour applications, offering a balance of efficiency and passenger comfort. Featuring a distinctive two-tone beige and white exterior, the vehicle is built to provide ample visibility with its multi-window side profile. The standard front-door configuration ensures easy boarding, making it an ideal solution for urban transport or short-distance tourism.
