

Compact Passenger Coach with Climate Control

This coach is designed for tourism and business use. NVH technology reduces noise and vibration, while a roof-mounted air conditioner maximizes space and cooling.

Overview

Compact Passenger Coach

The ZK6708DH is a highly versatile and compact passenger coach designed for efficiency in city tours and shuttle services. With a capacity of 23 passengers, it balances compact dimensions with a spacious, comfortable interior featuring climate control. Its robust engineering ensures reliable performance, making it an ideal choice for professional operators requiring a durable and cost-effective transport solution.
