

Compact Personal Fan Heater

This is a compact fan heater designed for personal use. It features a tilted design with a heating element grill and a rotary control knob.

Product Overview

Compact Personal Heating Solution

This compact personal fan heater is designed for efficient and safe space heating. Featuring advanced PTC heating technology with self-regulating safety mechanisms, it ensures reliable performance while preventing overheating. The unit is built with fire-resistant materials and includes user-friendly controls, making it an ideal, portable solution for professional or personal environments.

Performance Metrics

Output Power

1500 W

Output Power

1800 W

Max Input Power

Safety & Features

Safety Features

Automatic Overheat Protection, PTC Self-Regulation, Fire Resistant PBT Material

Design & Usability

Design Highlights

- Compact and portable form factor
- Built-in carrying handle
- Easy-to-operate control panel
- No assembly required

Technical Specifications

Technical Details

Feature	Specification
Temperature Control	Electronic Controller
Heating Element	PTC (Long Life)
Housing Material	Fire Resistant PBT
