

Compact Personal Fan Heater

This fan heater is designed for voltages of 220-240V and frequencies of 50-60Hz. It is compact with packing dimensions of 22X13.5X26.5 cm.

Product Overview

Compact Personal Heating Solution

This compact personal fan heater is designed to provide efficient and localized warmth for small rooms, offices, or dormitories. It features dual power settings to suit different comfort needs and is built with safety in mind, including overheat protection and tip-over safety switches. Its portable design makes it an ideal solution for supplemental heating in professional or personal environments.
