

Compact Pilot Excavator

This compact pilot excavator is engineered for efficient operation in confined spaces. It has a transportation length of 2700mm, a maximum digging height of 3300mm, and a transportation height of 2180mm.

Product Overview

Compact Pilot Excavator

This compact pilot excavator is engineered for efficient operation in confined spaces, making it an ideal choice for various construction and landscaping tasks. Designed for precision and power, it offers exceptional performance while maintaining a manageable footprint. Its robust build ensures reliability, allowing operators to tackle demanding jobs with ease and efficiency.

Dimensions & Physical Specs

Transportation Length	2700 mm
Transportation Height	2180 mm
Maximum Digging Height	3300 mm
Shovel Width	1200 mm
Caterpillar Track Length	1450 mm
