

# Compact Power Strip with USB Charging Ports

This compact power strip includes AC outlets and USB ports. It is designed for convenient power and charging in homes, offices, and during travel.

## Overview

### Compact Power and Charging Solution

This versatile power strip is designed to consolidate your power needs, featuring a space-saving footprint ideal for office, home, or travel environments. With a combination of high-capacity AC outlets and dedicated USB charging ports, it enables the simultaneous charging of multiple devices. Its compact design ensures easy portability while providing reliable power distribution for standard electronic devices.

## Technical Specifications

### Rated Power Capacity

**1250 W**

Maximum Power

**10 A**

Rated Current

Operating Voltage

125V~

## USB Charging

USB Input Range

100-250V~ 50/60Hz 0.5A

USB Output Power

5V - 3A (2.4A Max per port)

## Features

### Key Features

- Space-saving compact design
- Multi-device simultaneous charging
- High-speed USB delivery
- Portable for travel and office use

Connectivity

4 AC Outlets, 3 USB Ports
