Product Overview

Efficient & Compact PTC Heating Solution

This intelligent, compact PTC space heater provides rapid temperature control with high thermal efficiency and a long service life. Designed for convenience, it features wide-angle heat distribution, low-noise operation for undisturbed use, and advanced safety mechanisms. The unit is constructed from flame-retardant materials and includes automatic power-off protection for peace of mind.

Technical Specifications

Power & Heating Modes

800 W Heat Mode Power	6 W Cold Wind Mode	220 V Voltage
---------------------------------	------------------------------	-------------------------

Physical Dimensions

130 x 130 x 235 mm

Safety Features

Fall power-off protection, Overheat protection, Overcurrent protection, Flame retardant material
