

Compact PTC Space Heater

This space heater utilizes Positive Temperature Coefficient (PTC) heating elements for efficient heating. It offers two heat settings at 750 and 1500 watts and includes a power indicator light.

Product Overview

Compact PTC Space Heating Solution

The Compact PTC Space Heater is an efficient heating solution designed for quick and consistent warmth in office or room environments. It features motorized oscillation for improved heat circulation and integrated safety mechanisms, including overheat protection and a tip-over safety switch. With user-friendly adjustable temperature controls, this unit provides reliable heating performance while ensuring safe operation.
