

Compact Rice Cooker

This compact rice cooker is designed for small households or individual use. It features a non-stick inner pot, simple one-button operation, and an automatic keep-warm function.

Overview

Compact & Efficient Cooking

This multifunctional small pot is designed for convenience, offering a 200W low-power operation that makes it ideal for individual use or small households. Featuring a non-stick liner, it ensures easy cleaning and hassle-free cooking. With one-click operation and a lightweight, portable design, it is the perfect solution for preparing rice, porridge, and other grains with minimal effort.
