Product Overview

Professional Rice Milling for Urban & Rural Markets

The 6NF4A is an innovative fresh rice milling machine designed to meet the high standards of modern supermarkets and urban residents. It features a low-noise, dust-free operation with a high rice output rate, making it ideal for processing various rice varieties. Built with food-grade stainless steel components and a mobile castor design, it combines safety, hygiene, and convenience in a compact footprint.

Performance Metrics

Features secondary ventilation and 8 regulation settings to ensure higher quality polished rice.

Key Performance Stats

220 kg/h
Max Productivity

72 %
Max Rice Rate

75 dB
Noise Level

Technical Specifications

Equipped with a national standard copper core motor for reliable, long-term performance.

Technical Data

Parameter	Value
Rated Power	110V-240V, 50-60Hz
Motor Power	2.2kW
Spindle Speed	1400-1600 r/min
Energy Consumption	0.9-1.05 kW.h/100kg
Milled Rice Rate	65% - 72%
Screen Service Life	5000kg per replacement

Design & Construction

The all-in-one smooth line design offers a beautiful appearance while occupying minimal floor space.

Innovative head bearing with double dustproof design for environmental protection and clean operation.

Design Features

- Food-grade stainless steel rice channels
- Alloy steel rice rolls for high hardness and wear resistance
- Double dustproof head bearing design
- 360-degree heat dissipation system
- Integrated unibody design for internal protection
- Castors installed for easy mobility
- Feed control valve and gear adjustment knob

Physical Dimensions

Machine Weight	48 kg
Total Weight (with motor)	71 kg
Dimensions (L*W*H)	570 x 360 x 790 mm

Applications

Versatile functionality suitable for rice, corn, and coffee beans.

Supported Grains

Rice, Millet, Corn, Coffee Beans, Glutinous Rice

Compliance & Safety

Built with high-hardness alloy steel rolls and screens, certified to international safety standards.

Certifications

CE • ISO 9001 • RoHS • 3C Certified EMC • JB/T9792-2013 Standard
