

Compact Shaded Pole AC Motor

This compact shaded pole motor is designed for low-torque applications. It features a robust stator winding and durable rotor assembly.

Product Overview

Versatile Compact Motor Solution

This compact shaded pole AC motor is engineered for reliable, low-noise performance in light-load starting applications. Its robust design features a durable rotor assembly and a shaded pole construction, making it an ideal choice for professional household appliance integration. With international certification support including UL, VDE, TUV, and 3C, it provides a trusted solution for diverse HVAC and kitchen appliance systems.

Primary Advantages

- Wide power range availability
- Low operating noise levels
- Self-starting shaded pole design
- Durable metal frame construction
- Customizable configurations available

Certifications & Standards

Compliance Badges

UL • VDE • TUV • 3C

Application Suitability

Suitable Appliances

Dryers, Refrigerators, Ovens, Heaters, Dishwashers, Exhaust Fans, Air Conditioners, Microwaves, Medical Equipment
