

Compact Single-Barrel Washing Machine

This compact, single-barrel washing machine is designed for small loads and limited spaces. Its portable design makes it ideal for apartments, dorms, and RVs.

Product Overview

Compact Washing Solution

The WS15-593 is a compact, single-barrel washing machine specifically engineered for small-load requirements in limited spaces. Its highly portable design is perfectly suited for apartments, dormitories, and mobile living environments like RVs. The unit features intuitive timer controls and a durable plastic housing, combined with a transparent tub for complete cycle visibility.
