Product Overview

High-Efficiency PTC Space Heating

This compact PTC ceramic heater offers a reliable and safe solution for supplemental indoor heating. Featuring advanced dual-power settings and intelligent temperature regulation, it is designed for both comfort and efficiency. With integrated safety measures like V0 fire-resistant materials and child lock, it ensures peace of mind for home and office environments.

Performance Specifications

Heating Performance

900 W

Low Power

1800 W

High Power

Available Modes

- Low Heat (900W)
- High Heat (1800W)
- Fan-only circulation

Temperature Control

15 - 32

Safety & Compliance

Safety Features

Tip-over Protection, Overheat Protection, Thermal Fuse, Child Lock, V0 Fire-Resistant Material

Convenience & Design

Advanced Functionality

- Digital LED Display
- Soft Touch Control Panel
- 9-Hour Programmable Timer
- Auto Left-Right Oscillation
- Activated Carbon Dust Filter
