

Compact Three-Wheel Electric Mobility Scooter

This compact three-wheel electric mobility scooter is designed for both indoor and outdoor use. It features a comfortable adjustable seat, a front basket, and a user-friendly control panel.

Product Overview

Compact Mobility Solution

The FSL010TWDX is a maneuverable three-wheel electric mobility scooter engineered for both indoor and outdoor environments. It features a comfortable, adjustable, and swivel-capable seat with armrests for easy access, alongside a front basket for convenient storage. Designed for reliability, the unit offers a smooth, quiet ride powered by a rechargeable battery, making it an ideal choice for daily mobility needs.
