

Compact Tile and Stone Wet Saw

This compact tile and stone wet saw is designed for cutting ceramic tile, porcelain, slate, granite, and marble. It features a powerful motor, a continuous rim diamond blade for smooth and precise cuts, and a water cooling system to minimize dust and extend blade life.

Product Overview

Compact Tile and Stone Wet Saw

This compact wet saw is engineered for precision cutting of ceramic tile, porcelain, slate, granite, and marble. Featuring a powerful motor and a continuous rim diamond blade, it ensures smooth, accurate cuts while the integrated water cooling system minimizes dust and extends blade longevity. Its versatile design includes an adjustable cutting guide, making it an ideal choice for professionals needing reliable miter and bevel capabilities in a space-saving footprint.

Key Features

Cutting Capabilities

- Miter cuts
- Bevel cuts
- Continuous rim diamond blade

Design Benefits

Compact • Dust-reducing • Adjustable guide

Supported Materials

Ceramic Tile, Porcelain, Slate, Granite, Marble

Cooling System

Yes
