

Compact Tile Saw with Water Recirculation

This compact tile saw is designed for cutting ceramic, porcelain, and mosaic tiles. It features a water recirculation system to keep the blade cool and reduce dust.

Product Overview

Compact Tile Saw Performance

This compact tile saw is engineered for precision cutting of ceramic, porcelain, and mosaic tiles. Featuring an integrated water recirculation system, it effectively maintains blade temperature while minimizing airborne dust during operation. With its adjustable rip fence and stable cutting surface, it provides professional-grade accuracy for both DIY enthusiasts and professional tile installers.

Technical Specifications

Compatible Materials	Ceramic, Porcelain, Mosaic
Power Source	Electric Motor

Features

Key Features

- Integrated water recirculation system
- Adjustable rip fence for repeatable cuts
- Stable cutting table surface
- Safety blade guard

Usage

Suitable For

Professional Tile Installation • DIY Projects
