Product Overview

Versatile Professional Tool Solutions

This professional-grade tool collection offers three specialized configurations tailored for specific trade requirements: a 79-piece drilling and fastening kit, an 18-piece general household set, and a 30-piece electrician's toolkit. Each set is housed in a durable, dual-color Blow Molded Case (BMC) designed for high impact resistance, organized portability, and professional on-site storage. Ergonomic handles ensure comfort during extended use, making these sets ideal for maintenance, construction, and residential repair applications.

Build Features

Dual-color Case • Impact Resistant BMC • Ergonomic Grip • Magnetic Holders
