Overview

Versatile Compact Track Loader

This compact track loader is engineered for high performance in narrow, challenging environments such as urban infrastructure sites, warehouses, and workshops. Featuring a robust hydraulic system and compatibility with over 300 practical attachments, it offers exceptional multi-purpose utility for shoveling, stacking, lifting, and digging. Its design prioritizes operator efficiency, safety, and ease of use, allowing a single operator to achieve the productivity of a larger manual crew.

Engine & Electrical

Engine Specifications

Parameter	Value
Make/Model	YANMAR 3TNV82A-BDSA2
Horsepower (SAE Gross)	22.2 kW
Max Governed RPM	3000 RPM
Torque @ 2200 RPM	82.4 Nm
Displacement	1.331 L
Cylinders	3

Electrical System

- 12V Battery (65 Ah)
- 40 Amp Belt Driven Alternator
- 1.7 kW Gear Reduction Starter
- Diesel-Compression Ignition

Capacities

Fluid Capacities

35 L Fuel Tank	34 L Hydraulic Reservoir	40 L Hydraulic System	5.6 L Cooling System
