

Compact Twin Tub Washing Machine

This compact washing machine features a twin tub design for separate washing and spinning. It is designed for small spaces and light laundry loads, with efficient water usage and durable plastic construction.

Product Overview

Compact Laundry Solution

This twin tub washing machine is engineered for efficiency in limited spaces, making it an ideal choice for light laundry requirements. The unit features separate compartments for washing and spinning, providing a streamlined process for quick garment care. Constructed with durable PP and ABS materials, it offers a reliable, lightweight solution for professional or residential environments.
