

Compact Twin Tub Washing Machine

This compact twin tub washing machine is designed for efficient washing and spinning with separate tubs. It features a plastic shell, a super villous filter, and a large asymmetric high impeller for a powerful centrifugal vortex flow.

Overview

Compact Laundry Solution

This compact twin tub washing machine offers a versatile and efficient solution for small spaces, featuring separate tubs for simultaneous washing and spin-drying. Built with a durable, rust-proof plastic shell, it combines a streamlined design with practical performance indicators like a 7.5kg washing capacity. Ideal for apartments, dorms, or camping, it provides a convenient and economical way to handle laundry needs.
