

Compact Two-Burner Gas Cooktop with Stainless Steel Surface

This two-burner gas cooktop features a stainless steel surface. It is equipped with cast iron grates and individual control knobs for each burner.

Product Overview

Compact and Efficient Cooking Solution

This two-burner gas cooktop is designed with a sleek, modern stainless steel surface that provides both durability and easy maintenance for professional or home environments. Featuring high-efficiency burners with precise individual control knobs, it ensures consistent heat distribution for diverse cooking needs. Its compact footprint makes it an ideal selection for space-constrained kitchens or as a high-performance secondary cooking appliance.
