

Compact Urban Light-Duty Truck with Flatbed

This compact, light-duty truck is designed for urban and light commercial applications. It features a flatbed cargo area and a cabin for multiple passengers, with a small turning radius for easy maneuvering.

Overview

Compact Urban Utility

This light-duty truck is engineered specifically for urban and light commercial environments where maneuverability is critical. Featuring a versatile flatbed cargo area and a double-cab configuration, it comfortably transports both passengers and goods. Its compact design and small turning radius make it an ideal solution for city-based delivery, maintenance operations, and short-haul transport.

Key Features

Design Highlights

- Compact dimensions for tight spaces
