

Compact Vacuum Cleaner with Transparent Dust Container

This compact vacuum cleaner is designed with a transparent dust container. Its durable construction and ergonomic handle ensure efficient cleaning and easy dust disposal.

Product Overview

Compact Cleaning Efficiency

This compact vacuum cleaner is engineered for efficient maintenance in professional and residential settings. It features a highly durable construction paired with an ergonomic design, ensuring ease of use and long-term reliability. The transparent dust container allows for quick monitoring of debris levels, facilitating a seamless and hygienic emptying process.

Key Features

Highlight Features

Compact Design, Transparent Container, Ergonomic Handle, Efficient Airflow

Design Details

Design Specifications

Component	Design Benefit
Dust Container	Transparent for easy capacity monitoring
Handle	Ergonomic grip for comfort during operation
Ventilation	Integrated grill for optimized thermal management
