Product Overview

Compact Vehicle Air Purification

This compact air purification system is engineered specifically for vehicle environments, providing a cleaner and healthier space for drivers and passengers. It utilizes a high-efficiency filtration process to capture dust, pollen, smoke, and odors, ensuring fresh air during your commute. Designed for convenience, the unit features simple one-button operation, quiet performance, and versatile power options for easy integration into any car interior.

Performance Metrics

CADR Rate

18 m³/h

CADR Rate

Area Coverage

3 m²

Sound Level

40dB(A) - 53dB(A)

Technical Specifications

Power Supply	100-240V or 12V (Car)
Rated Power	3 W
Dimensions	208 x 89 x 218 mm

Features & Capabilities

Operational Features

- 2-speed fan control
- One-button interface
- Filter replacement reminder
- Car attachment belt included
- Includes car cigarette lighter adaptor

Optional Upgrades

Auto Mode • Air Quality Indicator • Negative Ion Generator • UV Sterilization

Filtration Technology

HEPA Filter, True HEPA H13 (Optional), Pre-filter, Activated Carbon
