

Compact Vehicle Air Purifier

This compact air purifier is designed to improve air quality within a vehicle. The device features multiple control buttons and likely utilizes ionization technology to remove pollutants and odors.

Product Overview

Compact Vehicle Air Purifier

This compact air purifier is specifically engineered to enhance air quality within vehicle interiors. Utilizing advanced ionization technology, it effectively captures pollutants and neutralizes odors to ensure a fresher environment during travel. The intuitive interface allows users to easily toggle power and adjust fan speeds, making it a practical solution for maintaining a healthy cabin atmosphere.

Design & Interface

Control Options	ON-OFF Control, LOW-HIGH Speed Adjustment
Ventilation Pattern	Radial circular vent design for optimized air circulation

Key Features

Primary Benefits

- Ionization-based pollutant removal
- Odor neutralization
- Compact form factor for vehicle placement
- User-friendly manual controls

Operational Modes

2 modes

Fan Speed Settings
