

# Compact Ventilation Exhaust Fan

This compact exhaust fan is designed for ventilation purposes. It features aerodynamically designed blades within a durable plastic housing to optimize airflow, making it suitable for removing odors and moisture in bathrooms, kitchens, and small rooms.

## Overview

### Compact Ventilation Solution

This compact and efficient exhaust fan is engineered to provide reliable ventilation for bathrooms, kitchens, and small residential spaces. Featuring durable plastic housing and aerodynamically designed blades, it effectively removes odors and moisture while maintaining quiet operation. Designed for standard voltage systems, this unit offers a straightforward installation process for long-lasting performance.

## Technical Specifications

Voltage Compatibility	Standard Voltage
Housing Material	Durable Plastic
Key Features	Quiet Operation, Aerodynamic Blades, Moisture Removal, Odor Removal

## Applications

### Ideal Environments

- Bathrooms
- Kitchens
- Small Rooms
