

# Compact Wall Mounted Washing Machine

This compact washing machine is designed for wall-mounted installation, saving valuable floor space. It features an automatic washing program with multiple settings, including wash, rinse, and spin cycles.

## ADDITIONAL IMAGES

## Overview

### Innovative Space-Saving Solution

This compact wall-mounted washing machine is expertly designed to maximize floor space in small living environments such as apartments or dorms. Featuring a high-temperature 98°C wash cycle, it ensures the elimination of bacteria and microorganisms for a hygienic clean. Equipped with an efficient BLDC inverter motor, it provides quiet, stable, and energy-saving performance for modern household needs.

## Technical Specifications

Washing Capacity	2 kg
Spin Speed	600 rpm
Motor Technology	BLDC Inverter
High Temperature Wash	98 °C

## Safety & Design

### Door Specifications

<b>400 mm</b> Window Diameter	<b>180 °</b> Opening Angle
----------------------------------	-------------------------------

Safety Features	Child Lock, Anti-Scald Door, Pause & Add Function
-----------------	---

## Installation Requirements

### Installation Criteria

Parameter	Minimum Requirement
Wall Thickness	23cm
Hole Depth	23cm

### Included Components

- Water inlet tee
- Drain pipe
- Expansion bolts
- Damping gasket
- Installation guide
