

Compact Wheel Loader

This compact wheel loader is designed for versatility and efficiency in construction and agricultural applications. Its robust hydraulic system facilitates lifting and maneuvering heavy loads.

Product Overview

Compact Wheel Loader Overview

This compact wheel loader is designed for versatility and efficiency across construction and agricultural environments. Featuring an updated engine and a robust hydraulic system, it provides the power necessary for maneuvering heavy loads in restricted spaces. Its modern sealed cabin enhances operator comfort, while high-reach capabilities and easy maintenance access ensure long-term productivity and operational ease.

Technical Specifications

Maximum Dumping Height	3300 mm
Maximum Lifting Capacity	1500 kg
Bucket Capacity	0.8 m3

Features

Operational Highlights

- Comfortable sealed cabin environment
- High dumping capability for shipping logistics
- Simplified access points for efficient maintenance
- Compact chassis for tight space maneuverability
