

# Compaction Garbage Truck

This garbage truck is equipped with a compression-type garbage collection system. It is designed for efficient waste management and heavy-duty operations.

## ADDITIONAL IMAGES

## Overview

### Efficient Urban Waste Management

This compression-type garbage truck is engineered for high-efficiency waste collection in urban and industrial environments. Featuring a robust chassis and a specialized compacting unit, it is designed to maximize load capacity and streamline municipal sanitation operations. Its durable construction ensures reliable performance for daily heavy-duty waste management tasks.

## Technical Specifications

### Exterior Finish

- White Cab
- Green Compacting Unit
- Gray Accents

### Vehicle Type

Compression Type Garbage Truck

### Key Design Features

Compression System, Heavy-Duty Build, Urban Operation Ready, Automated Collection
