

Compound Miter Saw for Woodworking

This compound miter saw is designed for making accurate crosscuts and miter cuts in wood. It combines the features of a miter saw and a compound saw, allowing for both angle and bevel cuts.

Overview

Precision Compound Miter Saw

This compound miter saw is a versatile power tool engineered for highly accurate crosscuts, miter cuts, and bevel cuts in woodworking projects. By combining miter and bevel capabilities, it allows for complex angle adjustments to ensure professional-grade results. Built for stability and precision, the saw features a robust base and fence system, alongside an integrated dust collection mechanism to maintain a clean and safe workspace.

Performance

Maximum Speed

6000 R.P.M

Rotational Speed

Cutting Capabilities

Crosscuts, Miter Cuts, Bevel Cuts

Design & Build

Stability & Accuracy

- Sturdy base construction
- Adjustable fence system
- High-speed circular blade

Maintenance

Dust Collection System
