

Compressor Cooled Water Dispenser

This water dispenser features compressor cooling for efficient temperature regulation. It provides both hot and cold water options for various beverage needs.

Product Overview

Professional Compressor Cooled Water Dispenser

This high-performance water dispenser features reliable compressor cooling technology, ensuring rapid and efficient temperature regulation for both hot and cold water. Designed with durability in mind, it utilizes stainless steel tanks for both heating and cooling, making it an ideal solution for office or commercial environments. The unit includes a convenient storage cabinet and offers versatile voltage compatibility to suit global market requirements.

Model Number	RL-60LB

Performance Metrics

Core Performance

550 W

Heating Power

90 W

Cooling Power

5 L/h

Hot Water Capacity

2 L/h

Cold Water Capacity

Technical Details

System Specifications

Feature	Specification
Hot Water Temperature	85-95 °C
Cold Water Temperature	5-10 °C
Heating Tank Volume	1.0 L
Cooling Tank Volume	3.6 L

Tank Material	Stainless Steel
