

Compressor Wine Refrigerator

This compressor wine refrigerator is designed for precise temperature control. It features wooden shelves and interior lighting.

Overview

Professional Wine Preservation

This compressor-based wine refrigerator offers a premium storage solution for wine collections, featuring a generous 76-bottle capacity. Designed with precision in mind, it includes an adjustable electronic thermostat and ventilated cooling to maintain an optimal environment between 5-20°C. The unit is protected by double-layer tempered glass to filter harmful UV rays, ensuring your collection ages perfectly while remaining visible through stylish LED interior lighting.
