

Computer Network Interface Card

This network interface card enables computers to connect to a network. It provides the interface for data transmission and reception.

Product Overview

Professional Utility Transport

This three-wheeled cargo vehicle is engineered for efficient material transport in demanding environments. Featuring a robust cargo bed and a stable three-wheel configuration, it provides reliable performance for construction, agricultural, and delivery logistics. Its design focuses on operational simplicity and durability for daily heavy-duty use.

Technical Specifications

Key Features

- Durable cargo bed
- Ergonomic driver seating
- Simplified control interface

Model Number	ZYP-1150A-II
Wheel Configuration	Three-wheeled (1 front, 2 rear)
Primary Applications	Construction, Agriculture, Delivery Services
